# Process: innovation

# Innovation

- Staying in tune means innovating constantly, do not want to be first or a late adopter.
- Horizon analogy (70-20-10):
  - sustain
  - adjacent
  - new markets.
- Third Horizon includes moonshots and unknown unknowns.
- Define an innovation frontier:
  - How far are you willing to chase?
  - Do you have interdisciplinary teams?
  - How do you identify problems to solve?

# Bleeding edge

**Bleeding edge versus cutting edge:**
- The difference is based on accepted risk.
- You cannot generally build a business on bleeding edge.

**Bleeding edge**

Category of technologies so new they have a high risk of being unreliable and lead early adopters to higher expense.

- augmented reality with AI
- players
- at home, 3D retail printing
- holographic monitor displays
- brain to screen options.

Vs

**Cutting edge**

Technological devices, techniques or achievements that employ the most current and high-level IT developments; in other words, technology at the frontiers of knowledge.

- augmented reality
- 3D Gaming
- social television
- 3D printing
- DevOps?

# New stuff

- Edison Awards picks the yearly best technologies in a range of areas:
  - Focus on fielded solutions.
  - Not to be confused with Darwin awards for removing oneself from the gene pool.
- Many trends continue from year to year with small changes.
- Create opportunities through improving architecture.
- Digital world mirroring
- Bring your own environment.

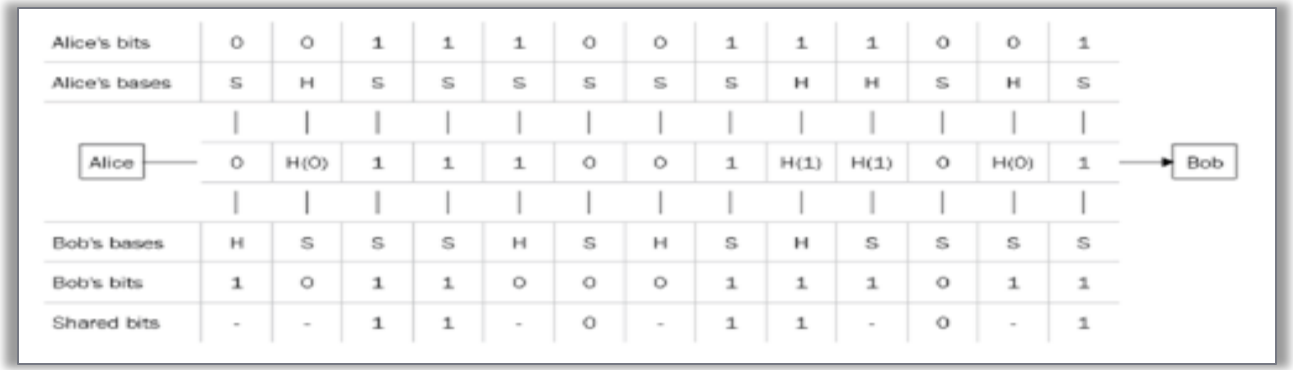

**Other technologies:**

- 5G
- internet of behaviour
- intelligent process automation
- tactile VR
- human augmentation.

# Newest stuff

- quantum encryption
- blockchain
- virtual and simulated reality
- edge computing
- GPT-4 large natural language computer model: used by multiple companies to improve language interpretation for search and compile options.
- multi-skilled AI.

| | | | | | | | | | | | | | |
|---|---|---|---|---|---|---|---|---|---|---|---|---|---|
| Alice's bits | 0 | 0 | 1 | 1 | 1 | 0 | 0 | 1 | 1 | 1 | 0 | 0 | 1 |
| Alice's bases | S | H | S | S | S | S | S | S | H | H | S | H | S |
| | \| | \| | \| | \| | \| | \| | \| | \| | \| | \| | \| | \| | \| |
| Alice → | 0 | H(0) | 1 | 1 | 1 | 0 | 0 | 1 | H(1) | H(1) | 0 | H(0) | 1 → Bob |
| | \| | \| | \| | \| | \| | \| | \| | \| | \| | \| | \| | \| | \| |
| Bob's bases | H | S | S | S | H | S | H | S | H | S | S | S | S |
| Bob's bits | 1 | 0 | 1 | 1 | 0 | 0 | 0 | 1 | 1 | 1 | 0 | 1 | 1 |
| Shared bits | - | - | 1 | 1 | - | 0 | - | 1 | 1 | - | 0 | - | 1 |
