Skills	Job ID	Experience	Job Description	Skill Category
Tools Admin	133426	7 to 12 Years	• Experience in troubleshooting of large scale Application Performance Management Issues; Tools used such as Dynatrace, Synthetic Classic, Dynatrace One Agent, DCRUM, IXIA etc.	Others
Mainframe DBA	133452	7 to 12 Years	• Refresh DB2 objects from one environment to another • Alteration of table schema like adding/ deleting columns • Resolve DB2 database performance tuning issues, support database security issues such as grants and revokes	Others
Linux Admin	133439	5 to 10 Years	• Good Experience in RHEL System Administration • Server installation PXE configuration and maintenance. • User and File system administration, Backup & Recovery, Job scheduling. • RPM/Package management using YUM	Linux
HPOV Admin	133423	4 to 7 Years	• Patching and upgrading Operations Bridge Suite tools including OMI, Site scope, OBR and NNMI. • Setup of system monitoring for MF Tools including (OMi, Site scope). • Ability to create custom scripts that can be integrated into HPOMi.	Others
Cassandra DBA	133425	5 to 10 Years	• Experience in Cassandra DB, NoSQL, and RDBMS in production environment.	Others
Application Packaging	133432	5 to 8 Year	• Packaging experience and in depth knowledge of Flexera Admin Studio software in repackaging Legacy setups and customizing 3rd party Vendor • Application compatibility testing, application retesting and application deployment testing.	Others
DevOps	134108	5 to 8 Year	• Extensive experience in a Systems Engineering/DevOps role in a large scale environment required. Candidate will possess strong knowledge of Unix/Linux systems and internals • A experienced understanding of Chef, Jenkins and other common related technologies such as Git and Artificatory and testing methods is must. • Good understanding of standard networking protocols and components such as HTTP, DNS, TCP/IP, the OSI Model, networking and load balancing. Fluent in at least one scripting language such as BASH. Demonstrated ability to write programs using a high-level programming language like Ruby or Python is a plus.	Others
Suse Linux	134107	5 to 8 Year	• Experience with SUSE Linux including trouble shooting performance issues, LVM, GRUB, autoyast, and kernel upgrading. • Experience on setting up and managing SMT server • Understanding kernel testing and upgrading across fleet, with possible experience with live kernel upgrading • Experienced on locking down SUSE for security and compliance requirements.	Linux

Skills	Job ID	Experience	Job Description	Skill Category
DC Cloud Architect	132351	7 to 12 years	• Understand the migration process, configuration AWS services, Must approach on Operations, configurations, architect, planning and managing infrastructure both on premises and AWS cloud • Execute Lift and shift process using business required Tools. • Configuring EC2, IAM ,VPC, Subnet, enabling gateway services, Lambda and all other AWS services to map migrated servers	Cloud
Middleware SME	132353	7 to 11 years	• Ability to understand and implement the migration process and configuration of the environment • End to end operations in IBM WebSphere Application Server as per business needs. • Should have strong knowledge on migrating IBM MQ/MB on Linux/AIX/Windows.	Middleware
Linux / Solaris SME	132354	8 to 12 years	• Experience working on RHEL6,7, OEL6,7,Suse10,11,CentOS6,7,Solaris 9,10,11 administration skills • Hands on Experience on P2V/V2V Migrations and Datacenter Consolidation. Create, maintain, and use Standard Operating Procedures (SOPs) for migration execution. • Installation/Configuration/Troubleshooting of RHEL5.x, 6.x, 7.x, Solaris 9,10,11/Virtualization and Hardware Platforms.	Linux
Database Architect	132355	8 to 12 years	• Expert in Installation, Configuration, High Availability, RAC, Migration • Understand the migration process, Configuration of standard and RAC database in Physical and Virtual services. • Experience on database performance, network and storage. • Hands on experience in different types of migration approaches both standard and RAC database migration.	Oracle/SQL Database
Database SME	132357	8 to 12 years	• Expert in Installation, configuration, High Availability, RAC, Migration, • Hands on experience in migration process, Configuration of standard and RAC database in Physical and Virtual services. • Understand the High Availability Concepts.	Oracle/SQL Database
DC Infra SME – Network & Security	132358	7 to 12 years	• Local & Wide Area Network and Network Security Support. • Acts as subject matter expert on network security and firewall policy analysis, QA, and review. • Experience with physical, virtualization and cloud.	Network
DC Infra Storage & Backup SME	132361	7 to 12 years	• Administrate and architect backups and storage for a global IT environment • Support storage and backups for global environment and Execute backup and restore in a virtualized infrastructure. • EMC, IBM, NetApp, Hitachi and Storage Array installation, configuration and administration.	Storage
Cassandra and PostGresSQL DBA	132371	5 to 10 years	• Experience in Cassandra DB, NoSQL, and RDBMS in production environment, Cassandra database administration on a multi-datacenter cluster is desired. • Hands on experience in Cassandra Cluster prod environments with the knowledge on Cluster Monitoring, installation, upgrades , commission and decommission of nodes from the cluster is desired.	Others
IIS Admin SME	132374	6 to 12 years	• Strong hands on experience on IIS servers (HTML, JavaScript, XML, AJAX and Service-Oriented Architecture). • Exposure in configuring and troubleshooting virtual directory / application pool. • Manage multiple sites, IIS performance Tuning.	Others

Skills	Job ID	Experience	Job Description	Skill Category
JBOSS Web Admin	132377	6 to 12 years	• Ability to understand and implement the migration process and configuration of the environment. • End to end operations in IBM WebSphere Application Server as per business needs. • Should have strong knowledge on migrating IBM MQ/MB on Linux/AIX/Windows.	Middleware
Network Admin SME	132379	6 to 12 years	• Experience with Networking concepts including Load Balancing, Security, Routing & Switching • Good knowledge on LAN & WAN technologies. Network Designing and Implementation. • Strong knowledge in Migration & Datacenter Consolidation. Datacenter Migration & Consolidation Experience. • Support for LAN/WAN networking technologies, including switches and VPN appliances	Network
Network Firewall SME (DC Security)	132386	6 to 12 years	• Local & Wide Area Network and Network Security Support. • Acts as subject matter expert on network security and firewall policy analysis, QA, and review. • Experience with physical, virtualization and cloud.	Network
Network DNS Perimeter	132387	6 to 12 years	• Hands on experience in Cisco DNS Peri Meter, Network Security Operations and Networking • Good in Datacenter Migration experience • Experience with networking concepts including Load Balancing, Security, Routing & Switching.	Network
Transformation / Automation Lead	132389	8 to 12 years	• Experience with annual planning and periodic forecasting of projects (incremental Book of Work) and Business as Usual (BAU) production volumes. • Must have well-rounded technical abilities including an infrastructure or solutions architecture background.	Others
MY SQL DBA	132350	8 to 12 years	• Develop and support MySQL database replication. Database Server / Service Monitoring and Alerting System Design and Support. • Day-to-day administration and oversight of the Database / Data Warehouse Environments. • Troubleshoot database issues, maintain database systems availability and scalability .HA / Fail-Over Testing	Others
Hadoop Admin	132390	5 to 10 years	• Responsible for implementation and support of the Enterprise Hadoop environment. • Involves designing, capacity arrangement, cluster set up, performance fine-tuning, monitoring, structure planning, scaling and administration. • Need to implement concepts of Hadoop eco system such as YARN, MapReduce, HDFS, HBase, Zookeeper, Pig and Hive.	Others
SCCM Admin (Imaging & Patching)	129433	6 to 10 years	• Good working experience in deploying application using SCCM, Experience in Image maintenance (patches, fixes, and so on). • Experience on Microsoft security updates (SCCM), Experience on Software distribution tool management (SCCM). • Experience on Hardware/software inventory maintenance (SCCM), Experience on Antivirus Management and updates (McAfee/SCCM). Experience on Change and Release Management, Experience on Application Packaging. Experience on Software/Package Deployment – SCCM	SCCM
Mongo DBA	132352	5 to 10 years	• Good knowledge in all database activities like Creation, configuration , backup, restore, SQL optimizations, provisioning infrastructure, setting up graphing, alerting tools, replication , monitor large-scale, secure and MongoDB shared clusters.	Others

Skills	Job ID	Experience	Job Description	Skill Category
Network	134008	3 to 8 years	• Performing network operations Checkpoint, Palo Alto & ASA Firewalls • Switches - Cisco Nexus 7010, Cisco 6500, Cisco 2950 and HP 4500, • Load Balancers (F5 - APM, GTM, LTM and ASM), MPLS Overview & WAN Optimization – (IPANEMA preferred) • VPN Solution (Juniper SA 4500, Cisco NAC)	Network
Oracle Database Administrator	134009	3 to 8 years	• Strong Oracle Database Administration experience to diagnose DB issues without help of third party tools. • In depth knowledge of RMAN backup/restore and cloning • Experience in Monitoring , Configuration and Installation on all Unix and Windows flavors • Experience in Backup & Recovery, Replication and Import/Export	Oracle/SQL Database
Middleware Admin	134010	3 to 8 years	• Apache, Tomcat, Oracle WebLogic, IBM WebSphere, Oracle ServiceBus, JBOSS	Middleware
AWS Consultants	134026	3 to 8 years	• Install and configure virtual cloud instances in AWS cloud infrastructure • AWS based Provisioning (AMIs, EC2, S3, EBS, RDS, CloudWatch, CloudEdure, Cloud-Formation, Security Groups, Network Routing/ACLs, VPC, ELB/ASGs and Redshift). • Deploying, managing, and operating scalable, highly available, and fault tolerant systems on AWS	Cloud
Storage & Backup Admin	134230	3 to 8 years	• Managing, design, configuration and implementation of TSM (Tivoli Storage Manager). • Performing backup, recovery, troubleshooting, performing proactive maintenance and optimizing performance. • Provide Tier 3 support for backup server related issues as required. • Candidate should be able to work independently and complete the task. • Reporting on backup success/failure.	Storage
Citrix	134014	3 to 8 years	• Responsible for the daily XenDesktop & XenApp Operations and will handle the L2 Troubleshooting and escalations. Application publishing, upgradation. • Responsible for Appsense administration & configuration management in Environment Manager (EM), Application Manager (AM), Performance Manager (PM).	Citrix
Unix Admin	134015	3 to 8 years	• Linux/Solaris/AIX Day to Day System administration tasks - User management, Disk management, etc. • Troubleshooting on server & hardware related issues. Remote access management. Co-ordination with different supporting team. • Unix requirements -- RHEL 5, 6, 7 OS - Level 3 + IBM AIX 6.1, 7.1 OS, IBM p-series 5,6,7,8 hardware Level 3 + troubleshooting skills	Linux
Datapower	134017	3 to 8 years	• Primary responsibility includes supporting IBM Data Power Infrastructure. • Responsible for deployment, configuration, and application integration of XI52 DataPower appliances in Pre-production and Production environments. • Support the application development teams to implement Service Oriented Architecture and integration of custom developed web services with DataPower features. • Experience with cert management, Firmware upgrade of XI52 and XC10, Experience with XC10 grids. • Linux 6.x, 7,XI52 7.x, XC10	Others

Skills	Job ID	Experience	Job Description	Skill Category
SQL DBA	134018	3 to 8 years	• Typical database administrative tasks include: monitoring, performance tuning, trouble-shooting, back-up and recovery, installations and configurations on as needed basis as well as applying patches and upgrades. • Responsible for managing Development, Test, QA and Production databases and implementing future enhancements to meet the business needs of the end users. • Monitor database health - availability, reliability, performance, capacity planning.	Oracle/SQL Database
Service Desk	134019	2 to 6 years	• Understanding of ITSM tool like: Service Now • End User IT Issue handling and troubleshooting • Hands on experience in handling user issues over phone and e-mail • Strong Communication skills.24x7 Support	Others
Collaboration	134020	3 to 8 years	• Office 365 Administration, Expert knowledge in administering Active Directory (AD) and GPO's. • Exchange Online / Skype for Business /Fax Server/Archiving & Journaling Solution • Basic Understanding of Email Gateway, Strong troubleshooting skill	Others
IBM Security Access Management (ISAM)	134022	6 -10 years	• Ability to install, configure, deploy, maintain, upgrade, migrate, administer and support IBM Security Access Manager(ISAM) • Troubleshooting and Support Skills of ISAM and its Inter dependent components (like IBM HTTP Server, WebSeal Server, Policy Server) • Participate in design review working directly with clients and business owners on the integration requirements including provisioning, de-provisioning and user lifecycle into the Identity and Access Management (IAM) platform	Others
Windows & Vmware , Datacenter	134023	5 to 8 Years	• Understanding Server Hardware infrastructure , Windows Domain knowledge (2016 Server OS) • Windows Server Build, VmWare & Dell domain knowledge	Windows
Cisco Contact center - Skype	134013	3 to 8 years	• Understanding of Cisco IPT and contact center infrastructure • Cisco call routing and voice gateway configuration • Experience in networking protocols that include MGCP,H.323,SIP and SCCP • Implementation experience on standalone express system like CME and CUE	Network
TIBCO MFT	134012	3 to 8 years	• TIBCO MFT Platform server, TIBCO MFT command center and TIBCO MFT Internet Server installation and configuration. • Apply fixpacks, fixes and upgrades to TIBCO MFT Platform server, TIBCO MFT command center and TIBCO MFT Internet Server.	Others
IBM TSM(Tivoli Storage Manager)	134011	3 to 8 years	• Managing, design, configuration and implementation of TSM (Tivoli Storage Manager). • Performing backup, recovery, troubleshooting, performing proactive maintenance and optimizing performance. • Provide Tier 3 support for backup server related issues as required. • Ensure the 24×7 availability including "on-call" responsibilities	Storage

About Tata Consultancy Services (TCS)

Tata Consultancy Services is an IT services, consulting and business solutions organization that delivers real results to global business, ensuring a level of certainty no other firm can match. TCS offers a consulting-led, integrated portfolio of IT, BPS,infrastructure, engineering and assurance services. This is delivered through its unique Global Network Delivery Model™, recognized as the benchmark of excellence in software development. A part of the Tata group, India's largest industrial conglomerate, TCS has over 362,000 of the world's best-trained consultants in 46 countries. The company generated consolidated revenues of US $16.5 billion for year ended March 31, 2016 and is listed on the BSE (formerly Bombay Stock Exchange) and the NSE (National Stock Exchange) in India.
